## Social Responsibility & Environmental Policy

All operations in each business unit under Tongkah Harbour group are aware of their responsibilities toward society and the environment by coordinating closely together with all stakeholders including employees, shareholders, the public and private sectors. It starts from operations within the company to raise awareness of the company to the communities, then create network and community participation to reach the establishment of a foundation for continuous improvement and sustainable coexistence.

The guidelines can be summarized as follows .

1. The operations within the company emphasize on environmentally friendly manufacturing processes with strict quality control of water, air and waste management.
2. To raise awareness inside out, starting from the company and communities respectively. Focus on developing green areas , reforestation projects, and promote community forests management around the area of operations.
3. To create network and participation with emphasis on collaboration between company: government agencies, private and community participations to validate economic and social development of the community such promoting: career profession and income, education, health, religion, culture and sports.
